### 1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS") 134 "Interim Financial Reporting" and the applicable disclosure provisions of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The interim financial report should be read in conjunction with the Group's audited financial statements for the financial year ended 30 June 2012. This interim financial report also complies with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" issued by the International Accounting Standards Board.

The accounting policies and presentation adopted for this interim report are consistent with those adopted in the audited financial statements for the financial year ended 30 June 2012 except for the changes in accounting policies and presentation resulting from the following transitional exemption arising from the adoption of MRFS:

The Group measured its property, plant and equipment ("PPE") at cost, less any accumulated depreciation and any accumulated impairment losses. However, one of the subsidiaries measured its property at valuation, which basis of valuation is adjusted at Group level to cost basis in line with the Group policy. Upon transition to MFRS, the Group has elected to apply the optional exemption for this subsidiary so that the entire Group has the uniform accounting policy of stating the PPE at cost. At the date of transition to MFRS, PPE stated at revalued amount in the aforesaid subsidiary was regarded as deemed cost and the relevant revaluation surplus was recognised to the retained earnings.

### (b) Income tax

Previously, unutilised reinvestment allowance ("RA") was not recognised as deferred tax assets ("DTA"). Upon transition to MFRS, the Group regarded the RA as analogous to a government grant, and hence the accounting treatment of IAS 20 "Accounting for Government Grants and Disclosure of Government Assistance" is being adopted. As at the date of transition, the unutilised RA was recognised as tax credit receivables and deferred income accordingly.

### The figures have not been audited

### 11. Review of performance

For the quarter under review, the Group's revenue reduced from RM763.1 million in the corresponding quarter of the preceding financial year to RM710.8 million, attributed mainly to lower selling prices. Profit before taxation ("PBT") was lower at RM20.5 million for the quarter under review as compared with RM32.6 million in the corresponding quarter of last year as a result of lower margin and higher share of losses from associated companies.

For the financial year-to-date, revenue of the Group decreased to RM2.8 billion from RM3.3 billion in the previous financial year as the portion of revenue attributable to a former subsidiary, Southern Wire Industries (Malaysia) Sdn Bhd (now known as Bekaert Southern Wire Sdn Bhd), had been excluded after merging into the new associate Bekaert Southern Wire group of companies. The Group recorded a PBT of RM44.4 million as compared with RM15.3 million recorded in the previous financial year, with a stronger performance registered in the 2nd half of the financial year ended 30 June 2013.

### 12. Material changes in profit before taxation against the immediate preceding quarter

The Group's revenue and PBT for the quarter under review were RM710.8 million and RM20.5 million respectively, as compared with the preceding quarter's revenue of RM725.0 million and PBT of RM25.3 million. The lower revenue and profit were mainly due to lower sales volume and margin towards the end of the quarter.

### 13. Prospects

The increasing surplus of the Chinese steel industry and their dumping into this region will continue to weigh down on the prices and margins of the world steel industry. Until the Chinese government hasten its plan to cut down excess steel capacity, a major and sustained improvement in prices and margins is unlikely. However, as had occurred in the United States, European Union and certain ASEAN countries, Malaysia had taken steps to impose trade measures against unfair trade practices by Chinese exporters. When such measures become effective in the coming months, it will provide a major boost to the local steel companies. As such, the Board believes the performance of the Group will continue to improve in the financial year ending 30 June 2014.
